Philadelphia. May 11—Serious results have followed the feeding of caffeine, a drug jurking in chocolate as well as coffee, to the eight student members of the 'poison squad' of the Hahnemann Medical College here. All have been subject to severe headaches and serious attacks of nauses, while one member of the squad was in such a serious condition after taking the caffeine-laden water for the first twenty days that he had to be placed in a special ward in the hospital. He received constant attention, has recovered and at the college is said to have rejoined the squad' at the Hahnemann college was formed very quietly. It came into existence on March I and is under the direct supervision of Dr. Edmund T. Nesbit, director of the Hering laboratory of the college.

Dr. Nesbit called for volunteers from among the students.

Dr. Nesbit called for volunteers from among the students. He said he wanted men who were willing to do something for the benefit of humanity at large, even though it might be to their own discomfiture. Twenty-five students colunteered. Of these fourteen of the most perfect physically were chosen, eleven as regular members of the squad and three as alternates.

For thirty days the members of the squad were given deses of caffeine while Dr. Neshit and his assistants made personal observations, taking the pulses and temperature of the members of the squad and making notes on their general physical condition. It was not until within the less few days that one member of the squad weakened under the experiment

The laboratory was organized about fifteen months ago with Dr. Neshit as director, and almost immediately an exhaustive study was started to asexhaustive study was slarted to as-certain the destructive qualities of caffelne as used in food stuffs. * The students continued to live at the dormitories or at boarding houses, but they were required to take their meals at the training table located in the hospital near the diet kitchen. Before each meal the temperature was recorded, the pulse and respiration were taken and the blood pressure was tested. During the period the drug was noministered only Dr. Neshit knew the amount apportioned to each man and when and in what quantitie.
